"Oh, it is so much fun to be a squirrel," said Sandra the Squirrel. "When you are a squirrel, all you have to do all day is look for good nuts. I am so happy with my life."

But one day, something happened to make Sandra's happiness turn to misery.

As she was running through Weird Willie's yard, looking for nuts, Sandra saw a piece of chocolate cake.

So, all day long, Sandra the Squirrel foraged for nuts. When she had eaten enough nuts, she took any excess nuts to her home in the hollow oak tree and deposited them in a secret hiding place.

July, the restaurant is owner-chef Deborah Boehm's first excursion into professional cooking. Her culinary background includes lessons from relatives and foreign friends, and "lots of experimenting with new foods."

The night party was served a portion of hard-crust French bread. The white flour dough included bran, which gave it texture, and a unique flavor, which Ms. Boehm attributes to the home-grown yeast.

These "smock marriages," which originated in England, were not uncommon in the New England colonies during the early 1700s. The custom varied according to the region. In some places, the marriage took place after the groom and his scantily clad bride had crossed a highway one or more times. In other areas, the bride, often naked, stood in a closet and put out one arm during the wedding ceremony. Sometimes the bridegroom lent wedding clothes to his bride-to-be, keeping her modest while he protected his money.

English is widely spoken in hotels, in most shops and within the business community. Because cab drivers usually speak only Arabic, be sure to have your hotel doorman negotiate the fare and tell your driver where you are going.
